

Funktion Design Studio

ESTIMATE

Maureen Olm Design is pleased to be presenting an estimate for work to refresh Funktiondesignstudio.com.

We are offering ala carte pricing to provide you with options, depending upon the resources and assets currently available.

In addition to the website redesign, we are offering the professional services of logo design/rebranding,

copywriting, and photography to elevate current assets, and allow for a more impactful and engaging website.

We recommend using the 3rd party software, **SquareSpace** for reasons listed below. The most important is that once the project commences, Funktion Design Studio will be able to easily maintain and update the site on your own.
